

Cambridge Technicals - Level 3 Extended Certificate in Health & Social Care

Exam Board: OCR

Entry Requirements: 5 or more GCSE's at grade 4 or above, with ideally grade 4 or above in Maths, English and Science

Why study Health & Social Care?

Level 3 Health and Social Care uses a combination of assessment styles to give students the confidence so they can apply their knowledge to succeed in the workplace – and have the study skills to continue learning on higher education courses and throughout their career. The range of vocational assessments – both practical, written and examination – mean students can showcase their learning and achievements to best effect when they take their next step, whether that's supporting applications to higher education courses or potential employers.

The course has been developed to focus on providing opportunities for students to gain nationally recognised vocational specific qualification to enter employment in the Health and Social Care sectors or progress to higher education vocational qualifications. The Level 3 Extended Certificate offers the same number of UCAS points as one A level.

What does the course involve?

Content:

Year 12:

Where will Health & Social Care lead me post Sixth Form?

This qualification isn't just about caring for babies or the elderly and the ill; it will provide learners with the skills, knowledge and understanding to progress into Higher Education on a health and social care-related programme such as Health and Social Care, Nursing, Social Work or Early Childhood Studies. It can also lead to employment within the Health, Social or Childcare sectors.
